- **Self-motivated and productive person.** Eager to effectively utilize newfound knowledge and experience.
- **Friendly and supportive team member.** Cooperative and driven member who is committed to advancing towards the group's goals.
- **Basic experience with technical and advanced machinery.** Capable of effectively and safely operating technical tools and machinery.
- **Prioritizes organization in the workspace.** Focused on maintaining a well-organized workspace to maximize safety.

EDUCATION

California Polytechnic State University (2020-2024)

San Luis Obispo, CA

- B.S. Mechanical Engineering with a concentration in Mechatronics
- Current Undergraduate GPA: 3.801
- President's List 2020 Year
- Dean's List Fall & Winter Quarter 2021

Relevant Coursework

- Engineering hand drafting
- CAD with Solidworks
- Engineering statistics and data analysis
- Subtractive manufacturing
 - Operated a HAAS CNC Mill
 - Operated an engine lathe
- Matlab
- Metal casting and rapid prototyping
- Basic welding
 - Gas Tungsten Arc Welding
 - Gas Metal Arc Welding
 - Stick Welding

CLUB EXPERIENCE & AFFILIATIONS

Supermileage Club (2021-Present)

- Designed and manufactured parts to integrate the steering system and brake system into the chassis of our vehicle.
 - Supervised unfamiliar members with the manufacturing process and CAD modelling.
- Assisted in composite layups for the vehicle.

Tau Beta Pi Engineering Honor Society (2021-Present)

- Invited due to achieving a high academic standing.

TECHNICAL SKILLS

- Proficient in Microsoft Office
 - Completed HAAS Basic Lathe Operator training (Hands-on test currently not offered)
 - Completed HAAS Basic Mill Operator training (Hands-on test currently not offered)
-
